

Dear Training Providers

The objective of Short term training in Pradhan Mantri Kaushal Vikas Yojana scheme is provide skill training to the young people living across all states and districts of India in various sectors and job roles . We are delighted that all of you have shown an interest in developing and building a skilled work force in India.

However we have observed that the skill trainings imparted are highly focused in certain states, districts, sectors or job roles while other states, districts, sectors and job roles do not have the same coverage in terms of centres and targets. It may be noted that PMKVY have sectoral and geographical ceiling for target allocation. The success of the scheme is dependent on developing a skilled work force throughout India. Hence it is important that training centres are distributed across India rather than focused on certain regions.

In order to achieve this goal we encourage the training providers to focus more on the states, districts, sectors and job roles listed in the annexures. Training Centres which focus on the states, districts, sectors and job roles listed in the annexures will be given time preference during the centre accreditation and affiliation process and also during the target allocation process. We look forward to your eager and continued co-operation regarding the same.
